Ensure it is the same number as used on I-9 forms or Visa.

If the Provider has previously screened an employee under a BI program that meets the requirements of this program, and that employee has been continuously employed with the Provider since the date of the BI, the Provider is not required to do a new BI to meet the terms of this contract. - iii. When a contract includes work that is high risk and work that is not high risk, the appropriate BI must be done for each individual at the respective level.
